

Grotto 'Madonna della fontana' da Paolo

On the hill behind Ascona, in the woods, along the road leading from the area of San Materno to the Monte Verità, one can find this unique “Grotto”.

It is directly adjacent to the small church “Madonna della Fontana”.

Various parking places and a beautiful and ample terrace are available.

Inside there are two cozy dining rooms, each equipped with its open chimney, guaranteeing a homely ambiance should the weather be rainy or cool. The owner of the grotto, Paolo Annis, prepares all the special dishes with local produce.
